

Cash In Transit Tote Bags

CIT tote security bags are the ideal product for transporting cash to/from banks for deposit by third party courier.

These bags are reusable and is secured by a serial numbered plastic seal that is unique to the user. Bags can be specified with one or multiple windows for inserting sender and recipient address.

CIT tote security bags can be purchased in your choice of locking options, fabrics, and sizes. Bags can be customized with your company name, Logo and serial numbered for added security.

Nylon Tote Bags

Benefits of reusable bags :

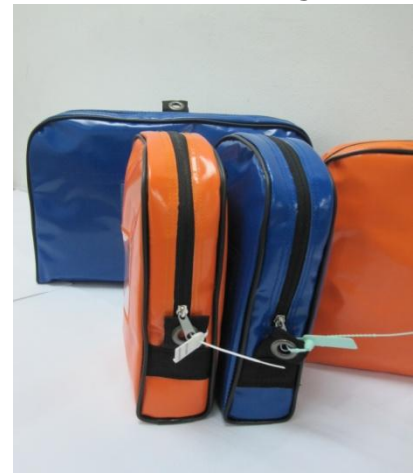

Saves money making it ideal for applications where one-use disposable bags aren't required.

Prevents fraud and loss during cash transfers by providing instant awareness of tampering attempts.

Enables tracking with optional bar-coded and alphanumeric seals, creating accountability and an audit trail from origination to processing.

Saves time by allowing immediate audits that, with a bar code reading system for electronic data transfer, can eradicate time-consuming paperwork.

Eliminates waste with a reusable and secure solution that lasts thousands of uses eliminating tons of discarded one-use poly bags from landfills annually.
