

# ATM Cassette Bags

ATM cassettes bag are ideal for transporting ATM cassettes from cash processing centre to ATM machines for cash replenishment duties. It is light weight and easy to carry.

Securepac's ATM cassette bags are made from high quality water resistant heavy duty nylon material, reinforced seam stitched, and padded with impact resistant PU foam all round. Each bag can fit 4 cassettes snugly. We have specific sizes for NCR and Wincor cassettes. Each bag is serial numbered and bar coded for easy identification and traceability throughout the entire chain of custody. Company name or Logo can be specified on the bag too.

These bags can be easily carried by means of side handle and Padded shoulder strap. A light weight aluminum trolley can be attached to the bag for easy handling. Trolley sold separately.

Bags can be folded and stored, thus eliminating the need for big storage space.

We can also custom made it to your specifications with minimum order quantity condition.

## Advantages of Securepac's ATM Cassette Bag

**Prevents fraud** and loss during cash transfers by providing instant awareness of tampering attempts.

**Enables tracking** with bar-coded and alphanumeric seals, creating accountability and an audit trail from origination to processing.

**Saves time** by allowing immediate audits that, with a bar code reading system for electronic data transfer, can eradicate time-consuming paperwork.

**Light weight** material used resulting in easy handling less fatigue to the user.

Type	Dimension	Weight
NCR	23"(W)x17"(H)x9"(D)	2.50kgs
Wincor	23"(W)x20"(H)x10"(D)	2.80kgs
