

Holographic Security Labels

Building up a brand costs millions and all brand owners would wish to protect their intellectual property and future income.

Worldwide commercial damages from illegal imitations of brands amounts to over 250 billion US dollars every year. To prevent loss of sales and damage to your image, effective brand protection is becoming more and more relevant.

Product piracy not only causes financial loss but also damages your company's image as well. In some cases life and health were also put at risk. It is imperative that the integrity of original products, and the safety of consumers, are guarded at all costs.

We are here to help you to protect your brand and your business from any potential losses from piracy with our full range of high-tech holographic labeling solutions.

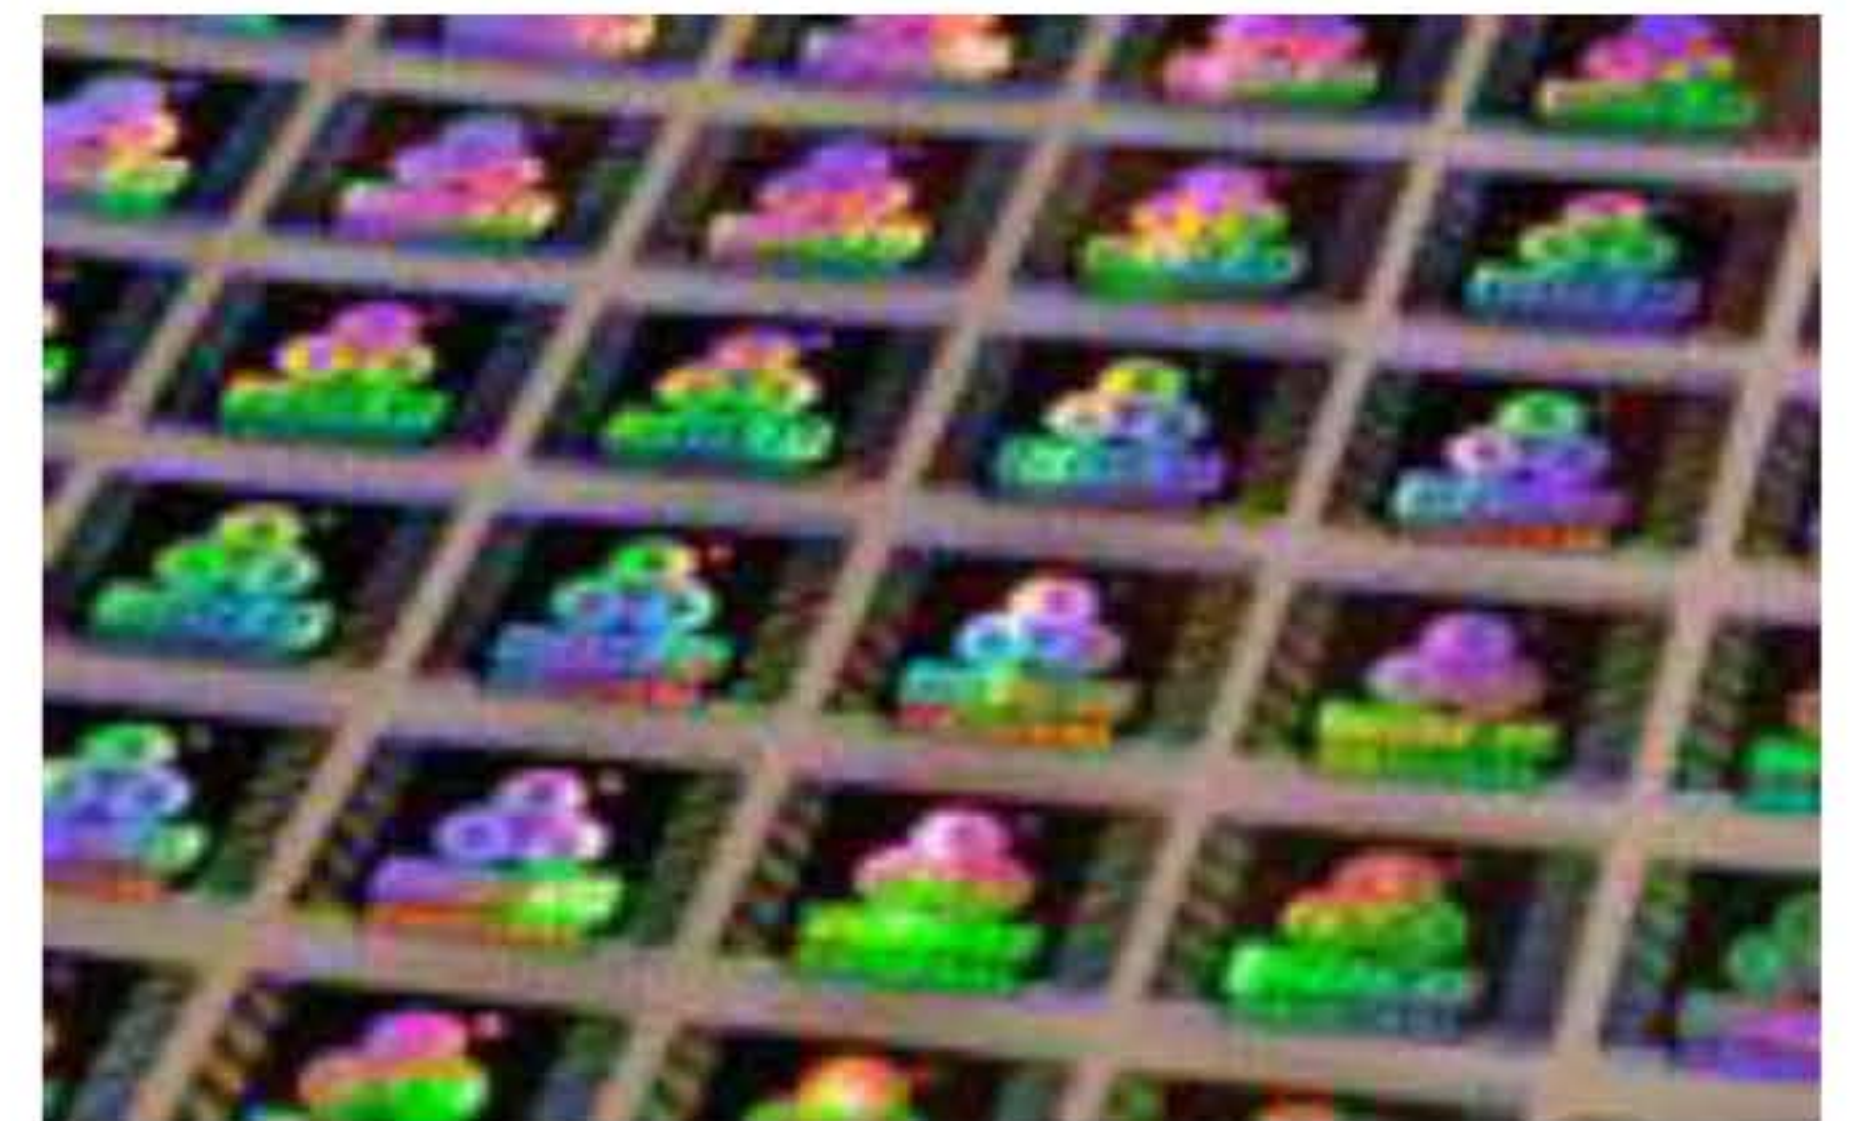

We have the technical know-how to enable us to keep up with the advancement of the world's latest technology in holography. This includes 2D/3D Hologram, Dot-matrix, Deep 3D, E-beam, Multi Channel (flip flop), OCRE, micro text, nano text, etc.
