

# Coin Bags

Plastic coin bags are ideal for packing sorted coins. It is made from heavy duty LLDPE films that are highly stretchable and tough at the same time. Seams are welded to 3mm width to avoid accidental breakage during handling.

We offer two types of coin bags.

1. Coin bag without closure. This bag need a heat welder to seal the top once it is filled with coin. This is the most economical option available to transport coins.
2. Coin bag with permanent self-adhesive closure. This bag comes with a self adhesive closure at the top of the bag. Simply fill it up and remove the liner to expose the adhesive and press firmly to seal the bag and you are good to go.

Our bags are made to order and each bag goes through stringent quality control and tests to ensure it meets the highest standards.

Full custom bags can be specified with custom size, thickness, prints, serial numbers, bar codes and security closures.

Standard size : 11"(W) x 18"(H) x 0.18mm
